

Effective July 1, 2004 Reintegration Planning will be implemented with offenders who are placed in the Earned Released Program at the Drug Abuse Correctional Center. During the six-month Earned Release Program, the reintegration planning process will involve revised and new tasks in preparing the offender for a successful return to the community.

In accordance with this initiative, Management and Union have agreed to an interim workload credit of 3 points per month for the 6 months of reintegration planning (18 total workload points). In addition, a time study will be put into effect for six months to assess the workload. Agents Laura Welle, Lynne Woodson and Jeff Johnson, along with Regional Chiefs Bob Grusnick, Jim Miller and Supervisor Susan Ross will be coordinating the time study. Based on the results of the time study the workload credit points will be re-evaluated.
